

BK Industrial heating tape

Applications :

- . heating and temperature maintenance of pipes, valves, tanks, etc ...
- . unclogging of hoppers.
- . freeze protection of huge equipments.
- . laboratories.

Advantages :

- . heating tape ready to install.
- . high flexibility for elaborate shapes.
- . good resistance to humidity.

Technical data :

- . standard linear output : 150W/m
- . standard voltage : 230V-50/60 Hz
- . other voltage : on request
- . standard lengths : 2m, 7m and 12m
- . supply cable : H07RNF L2m
- . max. exposure temperature : 180°C
- . max. maintenance temperature : 150°C
